The Henry R. Hinckley Company - as Manset Boat Yard - Coast Guard Boats on the Old Shore

Title: The Henry R. Hinckley Company - as Manset Boat Yard - Coast Guard Boats on the Old Shore

Type: Image, Photograph

Subject: Vessels, Boat
Businesses, Boatbuilding Business

Description: This photograph was taken before the Manset shore was filled in.

According to Ralph Warren Stanley (1929-2021), the White boat hauled up on shore in front of the William Spurling Newman house at 102 Shore Road, Map 17 Lot 100 was probably built by Leslie Les M. Rice (1883-1966) on Great Cranberry Island for William Uncle Jimmy Doane Stanley (1855-1950). She was built as a double ender. Someone bought her and put a square stern on her.

Work was slow at Hinckleys for awhile so Bill Dunham (Wilfred Manson Dunham (1918-2001) and Lewis Tapley (Lewis Merton Tapley (1916-1985) bought her and went fishing, though not for long. Work picked up at the Hinckley yard soon afterward.

The vessel was then bought by Abner W. Lunt (1908-1975), then she was bought by Luther C. Faulkingham (1901-1993) of Prospect Harbor, where she was the last time Ralph saw her.

The wharf building with the false front was the building that Francis Frank Thompson Chalmers Sr. (1893-1985), F. Dwight Perkins (1902-1981) and Merton S. Alley (1904-1985) had a car dealership in. Almon Frank Ramsdell Srs (1873-1946) garage was there later. Hinckley may have owned the building when this picture was taken. James Jim M. Willis (1919-2006) later ran The Boathouse there. Description: The First Masonic Hall, now 353 Main Street, Southwest Harbor - at the corner of Clark Point Road, - The Hall, built c. 1877 as Tremont Hall, was sold to the Masonic lodge around 1902. The lodge members renamed the building, raised it, and rebuilt the first and second floors to achieve the building shown in all the pictures as the First Masonic Hall See the Bar Harbor Times, April 20, 1927, p. 7. The building shown here is the Tremont Hall as it originally looked.

One of the old street lights is visible on the right. - In 1897, the different societies in the village combined to raise funds for street lights. The lamps were bought and placed near those houses whose owners were willing to furnish the kerosene and keep the lamps trimmed and lighted. These lamps did duty until the installation of electricity in the summer of 1917. - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, 1938, p. 124.

The building on the right is John C. Ralph's Studio - Optician and Jewelry. John C. Ralph was Postmaster at Southwest Harbor from July 19, 1897 to November 1, 1905 and the Post Office is in the same building at far right. - Note wooden sidewalks.

Description: This boat shop, built behind the owner's house, complete with two elegant bird houses, could have belonged to any one of many boat builders on and around Mount Desert and its surrounding islands or perhaps have been somewhere else in Maine. Transportation, Motorcycle

Description: Robert Lindsay Smallidge, Sr's 1921 Harley-Davidson JDS Sidecar Model was identified by fender and sidecard shapes using pictures and description from The Encyclopedia of the Harley-Davidson by Peter Henshaw & Ian Kerr, p. 18, 21, 30, 135 - 2006. Corroborating identification was made using several web sites. Judging from photographs of previous Harley-Davidson models we assume that Robert bought the cycle new in anticipation of his honeymoon.

Robert and Nathalie's honeymoon was spent exploring northern Maine on Robert's motorcycle and it seems probable that this photograph was taken on that trip. Their son, Robert Lindsay Smallidge Jr. remembered their telling their children that Robert was passing a car while driving the cycle and Nathalie, in the sidecar, collided with the other vehicle.

This photograph was probably taken by Helen Nathalie (Turner) Smallidge.

Design Influence for Southwest Boat Corporation Sou'wester Cruiser

Identifier: 8095
Title: Design Influence for Southwest Boat Corporation Sou'wester Cruiser
Type: Image, Photograph
Subject: Transportation, Automobile
Description: ""Just as it had been Edsel's [Edsel Ford] idea to buy Lincoln to give the company an elegant car to match GM's Cadillac, so in the midthirties, as Ford's competitive position continued to slip, he tried to get a part of the middle-priced market through the Zephyr. The Zephyr began as the Briggs Manufacturing Company ""dream car."" which Edsel saw in prototype at the 1933 automobile show. He was excited by it, having wanted for some time a car in price and quality between the Ford and the Lincoln. He bought the rights from Briggs and then brought in Eugene T. Gregorie, a former boat designer, to carry out his vision of a sleek auto for the middle-class buyer."" - The Fords: An American Epic by Peter Collier and David Horowitz, p. 158-159 - illustration #40 - 1987

Apparently design direction worked both ways. ""The design (above the water line) of speed boats of the 30's, 40's and 50's was influenced by automobile design of that era."" - Interview with Charles Morrill - 10/20/08
Morrill - Charles Barrett Morrill (1934-)

""Bink was obsessed with Lincoln Zephyr cars. He stove up three within two weeks. They all had this streamlined look."" - Interview with Ralph Stanley October 20, 2008
A photograph of the Lincoln Zephyr that is supremely evocative of the design era that influenced Bink Sargent appears in Photographs from the Collection of the Gilman Paper Company, curated by Pierre Apraxine, with plates by Richard Benson, and notes to the plates by Lee Marks. 480 pp. 199 plates and a frontispiece. Large folio (16 by 18.25 inches), bound in original half maroon calf over linen covered boards, in a slipcase. [Verona: Stamperia Valdonega for] The White Oak Press, 1985. Limited edition of 1200. Copy Number 466 in the collection of the Southwest Harbor Public Library.

Green Mountain House - New and Open for Business.

Identifier: 6323

Title: Green Mountain House - New and Open for Business.

Type: Image, Photograph

Subject: Structures, Commercial, Lodging, Hotel

Description: Francis Hector Clergue built the Green Mountain House in 1883, adjacent to the old Mountain House on the summit of Green Mountain, now Cadillac Mountain, to, serve patrons of his Green Mountain Railway, a cog railroad, which chugged up the mountain from Eagle Lake.

Both the old and new structures burned to the ground on August 2, 1884.

1884, August 2. The burning of a hotel on Green Mountain, Mount Desert, in the evening, was plainly seen from Belfast, at a distance of fifty miles. History of the City of Belfast in the State of Maine: From Its First Settlement in 1770 to 1875 by Joseph Williamson, p. 241 1913.

Frank Clergue immediately replaced this structure with a smaller hotel and his business continued as noted in the review below.

"...A Good Hotel Is At The Summit, where persons desiring it can find pleasant accomodations for a longer or shorter stay. Round trip tickets can be had of the company's agent, on Main Street, Bar Harbor. F.H. Clergue, President." - Part of an advertisement appearing in Bar Harbor and Mount Desert Island by William Berry Lapham - 1887.

Title: Daniel Webster Brewer's Mountain House on Green Mountain
Type: Image, Photograph
Subject: Structures, Commercial, Lodging, Hotel
Description: Taken later than the view shown in Item 5663, this view shows a little greenery grown up around the small hotel perched on granite.

The Mountain House, built in 1866, was the first hotel to be built on what was then Green Mountain, now Cadillac Mountain.

"Daniel Brewer's Mountain House operated through the early 1880's, offering simple, but hearty meals and modest overnight lodging. During the 1870's as many as 3,000 visitors patronized the place each summer." - Steam to the Summit: The Green Mountain Railway - Bar Harbors Remarkable Cog Railroad, by Peter Dow Bachelder, p. 24 - 2005.

This building was replaced with a much larger structure, The Green Mountain House, when the Green Mountain Railway was built in 1883.

New Primary School, Southwest Harbor

Identifier: 5679
Title: New Primary School, Southwest Harbor
Type: Image, Photograph
Subject: Structures, Institutional, School
Description: The building at the extreme left edge of this picture is St. John's Episcopal Church at 319 Main Street.

Adelbert Alden Gilley built the house in the left rear of this photograph, now 12 Maple Lane. The Ladies Aid of the Congregational Church purchased it in 1914 for use as a parsonage. -Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, p. 159 - 1938.

The building second left, just visible behind the school, was built about 1905 and owned by Mr. and Mrs. G.D. Atherton. Peter T. Benson moved the buildings to a lot on Clark Point Road, now 57 Clark Point Road, in 1937 and sold them to Russell White. The town then purchased the Atherton lot to become part of the school lot and the site of the new [Pemetic] High School building of 1938. - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, p. 159 - 1938.

The house to the right rear next to the school, now 29 Clark Point Road, the Edwin Albert Lawler House.

To the right of the Lawler House is a house built by William J. Tower for himself, now 38 Clark Point Road. Also visible is part of 30 Clark Point Road, also built by Mr. Tower, where he kept the post office for a number of years before selling it to E.S. Thurston when he became postmaster. - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, p. 157 - 1938.

After George Harmon bought the old wooden Southwest Harbor high school building in 1906 and moved it (see SWHPL 5680 for details), a new wooden high school was built on the schoolhouse lot, but further back from Main Street. This building later became Southwest Harbor's elementary school and is currently Harbor House. - 2007

Part of this building can be seen on the far right edge of this picture. Arthur T. Richardson was the architect and Henry Tracy the builder. R.M. Norwood built the additions.

Description: This photograph was taken in c.1903 before Mysie's marriage to Arthur Pope.

The photograph, one of two, was in the collection of photographer, Henry L. Rand,, but not taken by him. This indicates to archivists familiar with his life that Mysie was a friend. The unknown photographer of the portraits, someone named McCormick, may have been a fellow amateur photographer.

Mysie's biography is interesting as it illustrates both the later life of this young girl and the social life in Cambridge of which Rand was a part.

Mysie Black Bell

Identifier: 9047
Accession #: 1015
Title: Mysie Black Bell
Type: Image, Photograph
Subject: People
Description: This photograph was taken in c.1903 before Mysie's marriage to Arthur Pope.

The photograph, one of two, was in the collection of photographer, Henry L. Rand, but not taken by him. This indicates to archivists familiar with his life that Mysie was a friend. The unknown photographer of the portraits, someone named McCormick, may have been a fellow amateur photographer.

Mysie's biography is interesting as it illustrates both the later life of this young girl and the social life in Cambridge of which Rand was a part.

Title: Two Men at J.C. Ralph's Studio & Post Office

Type: Image, Photograph

Subject: Places, Town

Structures, Commercial, Store

Description: There are several street lamps visible in the photograph - the one on the right is different from the others. The lamp post on the left is at the corner of Clark Point Road. The building with the overhang beyond it is the Odd Fellows building.

The building on the right is J.C. Ralph's Studio - Optician and Jeweler - and the Post Office. A man is standing in the door of the Post Office and a man standing in front of Ralph's Studio. The photograph was taken soon after John Ralph moved his store and expanded it.

In 1897, the different societies in the village combined to raise funds for street lights. The lamps were bought and placed near those houses whose owners were willing to furnish the kerosene and keep the lamps trimmed and lighted. These lamps did duty until the installation of electricity in the summer of 1917. - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, 1938, p. 124.

Subject: Places, Harbor
Places, Town
Description: "From high on Freeman's Hill, one can view the development on Clark Point, an area once owned by the island's first minister, Ebinazer Eaton. Deacon Clark's hostelry and the William Underwood & Company spurred development on this point. Many of the residences belong to Clark family members. Storekeepers and tradesmen drawn to the area for work were settling here as well. Far off in the distance, the towers of Robert Kaighn's elaborate 1892 summer cottage signal the beginnings of the summer colony." - Mount Desert Island - Somesville, Southwest Harbor, and Northeast Harbor by Earle G. Title: Schooner Palestine in Deacon's Harbor, Clark Point

Type: Image, Photograph

Subject: Vessels, Ship, Sailing Ship, Schooner

Description: Schooner "Palestine" in foreground.

The Indian camps (during the summers) at Indian Lot may be seen over the bowsprit in background.

Beyond the foremast a rental building owned by Deacon Henry Clark is visible.

The white house at the center was the residence of Henry Clark - built for him in 1871.

The large house and barn at the left was the residence of William G. Parker - built for him in about 1868.

The building with a dormer was a workshop in Deacon Clark's shipyard. There was an apartment upstairs.

"The schooner Palestine, deserted here in Deacon's Harbor, was painted repeatedly by visitors. Behind the hull can be seen the workshops for Deacon Clark's shipyard business and Henry Clark and William Parker Chandlery. High on the hill are the houses of the deacon's children: daughter Ada, her husband William Parker (left), and son Henry. Each summer, Native Americans would return to their camping spot on the ridge, visible above the bow sprit." - Mount Desert Island - Somesville, Southwest Harbor, and Northeast Harbor by Earle G. Title: Crew Aboard Schooner Emma at Bernard
Type: Image, Photograph
Subject: People
Vessels, Ship, Sailing Ship, Schooner
Description: "A typical Maine fishing crew. The men of the schooner "Emma" of Swan's Island gathered near the mainmast for a group portrait at Bernard Harbor in the town of Tremont, following a trip to the offshore grounds, c. 1900. Judging from the tubs of trawl along the port rail (center-right), they have been ground fishing. The "Emma" was an 81-ton (n.m.) vessel built at Bath in 1883. Note the crew's leather boots, standard fishing apparel throughout the nineteenth century." - "The Maine Sea Fisheries: The Rise and Fall of a Native Industry, 1830-1890" by Wayne M. OLeary, 1996

The Jonathan Rich Family at the John Melbourne Rich House I

Identifier: 6022
Accession #: 1010
Title: The Jonathan Rich Family at the John Melbourne Rich House I
Type: Image, Photograph
Subject: People
Structures, Dwellings, House
Description: The house was built by John "Talking John" Melbourne Rich, the first of his three houses. John owed his Uncle Jonathan Rich (1836-1907) a sum of money, so he swapped this Tremont house for Jonathan's older less valuable Richtown house. Emily (Rich) Trask (1884-1981), John Melbourne Rich's daughter, said in a 1975 interview that she was born in the house, "in that back bedroom up there That was a big place. It was different from these daysit had a piazza clean around it and round the front. Father was great on building big places but he got in debt so much that he had to give up and go over to Richville [Richtown] and live."

The main house, minus barn and ell, still exists in 2016, although covered in green asbestos shingles. The house was originally painted a cream color with brown trim. It sits back from the road just before the Tremont Congregational Church.

The people in the photograph left to right:
Jonathan Rich (1836-1907)
Roseanna B. (Dix) Rich - Mrs. Jonathan Rich (1841-1916)
Avah Dalton Rich, Sr. (1876-1908)
Unknown lady in a white shirtwaist

Type: Image, Photograph
Subject: People
Description: Rebecca, matriarch of the Carroll family of Southwest Harbor, dressed in her best, stands at the corner of her property, at 7 High Road, the Levi Robinson / James Long / Rebecca Carroll House.

Several of Rebeccas children built houses that later filled the open fields between where she stands and the Congregational Church at 29 High Road.
Address: High Road
Place: Southwest Harbor
State: ME
Country: USA
Date: 1900 c.
Source: Collection of the Clark Family
Provenance: Courtesy of Frances Eliot Foote Stehman This photograph, as can be seen in the original scanned image, was developed using the Cyanotype method and, therefore, was printed in shades of blue. The library preserves all original scans. When a photograph is "cleaned" for researchers to learn as much from it as possible, the blue is changed to sharpen detail for researchers. Those who are interested in the original image are encouraged to consult the SWHPL XXXX - SCAN.TIFF image. Cyanotypes - Card stock can be painted with a special photosensitive emulsion containing iron salts, that when exposed to a negative and washed out, yields an image in a bright Prussian blue. The paper's texture is very evident as the emulsion is absorbed into its fibers and doesn't coat the surface. No developer was needed other than a water wash. Invented by Sir John Hirschel (1792-1871) in 1842, the cyanotype became popular in the 1880's because of its simplicity. Kodak even offered a special promotion for a few years in which you could have your negatives printed as cyanotypes. They generally went out of fashion in the 1920's.

Description: Earl Gott's house has had a varied history. It was begun on the Fernald Point Road, west of the Country Club house by Benjamin Gilley. Herrick, who moved it to the junction of the Clark Point and High Roads and used it as a store for thirty-five years or more. After Mr. Herrick's death, his daughter sold the building to Earll Gott who moved it to his lot on the High Road where he occupies it as a home, having entirely remodeled and improved it.

Type: Image, Photograph
Subject: People
Vessels, Steamboat
Description: About this photo, George Bedigan wrote: "I have enclosed scan of my fathers (Jean Bedigian) discharge papers from SS Norembega. The picture in question looks to be more circa 1920 than 1902. I say that after examining the gentleman with the suit and tie. If Jean Bedigian is in the photo it would be the fourth crew member from the left. I do not have a photo of him at that time but a photo of one of his sons (attached .. soldier on the right) has a likeness. Also he was not a tall man approx. 5 7. Jeans mother (Zois) and sister(Maria who married an American soldier) emigrated to the US after the first world war and may have settled in the area."

"While my father was alive, whenever we motored past the Claremont, while visiting Mt Desert, my father would tell the story of his father putting in that dormer. His father was an architect, and lived at the Claremont for a time. I have to assume he had a special relationship with the owners. He designed several houses and buildings in the area, notably, Ellsworth City Hall, and that kooky steep-roofed house on the waterfront in Manset. (You can't miss it. It's not like any other house in the area.The story was that it was designed around a Finnish stove)."

Leola Mae Pomroy - later Mrs. Walter Eugene Higgins - Watering the Family Cows

Identifier: 10107
Title: Leola Mae Pomroy - later Mrs. Walter Eugene Higgins - Watering the Family Cows
Type: Image, Photograph
Subject: People
Description: "Leola Mae Pomroy was born to Milton Lee and Velma A. (Murphy) Pomroy in 1924 in Seal Cove, Maine. Leola married Walter Eugene Higgins (1918-2010), son of Frederick W. and Beulah B. (Smith) Higgins, on December 14, 1941.

Leola Mae Pomroy (later Mrs. Walter Eugene Higgins) is shown kneeling at the well in the yard at the home of her parents in Seal Cove, Maine. In 2009, Leola, looking at this photograph, remembered exactly what she was doing when it was taken. She described it twice to Cassandra Catherine (Cousins) Wright, Mrs. Joseph A. Wright II, who wrote the story of Leola and the Well:

Leola, at age fourteen, was responsible for giving the cows water at the end of the afternoon. Two buckets of water had to be drawn from the well. Leolas father usually left the cast iron tea kettle which was kept on the wood stove, out on the steps so she could add some warm water to the trough making the water more palatable for the cows. One day Leola was very excited about going with her sister, Hilda [Hilda A. Pomroy (1925-), later Mrs. Howard Merchant] to a local ball game. In her excitement she skipped the teakettle step, but her father, who was churning butter, saw the missed step. He said, Leola, you did not warm the water.

She said, You never add warm water to our water bucket. Needless to say she did not go to the game. Sassing was not permitted.

I asked Leola if her sister went to the game without her and she told me, no. She explained that the girls were inseparable and went everywhere together. She told me that she had started school at five years old and was so miserable going without Hilda that, after a week of tears and her mother having to bring her home, her parents and the teacher decided to wait a year when the two girls could go to school together.

A few weeks ago Joe and I went to Leolas husband Walters graveside memorial service. It was a beautiful day and a large group of family and friends had gathered at the Seal Cove cemetery. Leola and Hilda sat side by side on the two folding chairs provided by the funeral home holding hands. It was very moving."

Description: "Ida Miriam (Lewis) Dix (1869-1956) was a great-granddaughter-in-law to William Dix Jr. (1776-1814).

Ida Miriam Lewis was born on January 29, 1869 to Stephen A. Lewis and Mary J. (Comeau) Lewis in Waterford, Nova Scotia. Ida came to Tremont in 1884 when she was 15. When she was 18 she married Hiram A. Dix Jr. (1861-1947) a fisherman, son of Hiram A. Dix and Emily Jane (Norwood) Dix, on March 15, 1887 in Tremont, Maine.

In 1895 the Dix family acquired their house in Bernard, Maine.

Hiram and Ida moved to Portland in 1918 and stayed there until 1950 when they came back home to Dix Cottage in Bernard. They had come there for summer vacations while they lived in Portland. Hiram fished out of Portland, probably on a trawler, for all his working life.

Ida Miriam (Lewis) Dix died on July 12, 1956 at the hospital in Bar Harbor, Maine."

Herman Newell Treworgy and Adeline Addie L. (Smith) Treworgy and Four Daughters

Identifier: 10095
Accession #: 1014
Title: Herman Newell Treworgy and Adeline Addie L. (Smith) Treworgy and Four Daughters
Type: Image, Photograph
Subject: People
Description: "Inscription on the back of the photograph:

""E.F. Ward
This is A Picture of my Family Taken, June 14th 1906, at my home in East Surry. The girls were all Single at that time.
Compliment of
Mr. & Mrs. Hermon N. Treworgy, Ellsworth, Maine.""

Herman Newell Treworgy (1852-1926), a carpenter, was born on May 26, 1852 to Samuel Newell and Sarah Jane (Flood) Treworgy in Surry, Maine. Herman married Adeline Addie L. Smith (1854-c.1925) on June 12, 1876.

The Treworgys were from Surry and lived there off and on. In 1900 they lived on Hancock Street in Ellsworth and lived there in 1920 on Water Street.

The Treworgys are shown with four daughters, but researchers have found information on only three:

Sarah J. Treworgy was born in July 1879. She married Albert G. Moon, who worked in a livery stable, on October 25, 1899. Sarah and Albert Moon lived with Sarahs parents in Ellsworth in 1900.

Marianna J. Treworgy was born in June 1882. She worked in a shoe factory and married Walter J. Clark Jr., a printer, on November 2, 1904.

Carrie B. Treworgy was born on May 2, 1890. She worked as a housekeeper in Gardiner, Maine, in 1910 and then married Herbert R. Fuller on June 20, 1912. At the time of her marriage she worked in a shoe factory. Herbert was a machinist.

Herman says that all the girls were single when the photograph was taken, but Sarah and Marianna were definitely married on the dates shown above. Perhaps he was mistaken about the date of the photograph, which was obviously taken several years before he gave it to E.F. Ward.

Herman Newell Treworgy died on June 22, 1926 in Bangor, Maine. Adeline Addie L. (Smith) Treworgy died between 1920 and 1930.

One can assume, from available information, that the family in the photograph was from left to right:

Probably Marianna J. Treworgy (1882-?) later Mrs. Walter J. Clark Jr. standing at left
Adeline Addie L. (Smith) Treworgy (1854-c. 1925), Mrs. Herbert Newell Treworgy - seated
Sarah J. Treworgy (1879-?) later Mrs. Albert G. Moon

Fish Factory Workers in Southwest Harbor with Horse Mackerel and Halibut

Title: Fish Factory Workers in Southwest Harbor with Horse Mackerel and Halibut
Type: Image, Photograph
Subject: People
Description: "The catch. probably tuna (called horse mackerel locally), has arrived at the packing house, having been dressed on board vessel. Now it is up to this hardy packing crew to wash these monstrous fish before packing them for shipment to Boston. Except for Asian markets, which existed mostly in large cities, there were few buyers for this product. At other times this packing house was filled with the more predominant fish of the day: hake, cod, haddock, and mackerel. Crews would wash the fish, lather them with salt, and pack them in ice in the tall barrels shown at rear for shipment to Gloucester or Boston. Only a few dealers in Manset, such as the Parkers, specialized in halibut, as it had to be shipped fresh on ice. Mackerel was the only product that had to be inspected once it arrived in Gloucester. As this list suggests, local fisheries processed a variety of fish. The local fishermen would head out, from spring through fall, following the schools, returning with whatever

the sea would offer, and putting extra change in their pockets." Text accompanying this photograph in Mount Desert Island - Somesville, Southwest Harbor, and Northeast Harbor by Earle G. Shettleworth Jr. and Lydia B. Vandenbergh - Images of America Series, 2001. p. 43.

Dr. Archibald L. Dix and sister Myra Verrill Dix

Identifier: 7219
Accession #: 1023
Title: Dr. Archibald L. Dix and sister Myra Verrill Dix
Type: Image, Photograph
Subject: People
Description: "Archibald and Mira Dix were great-grandchildren of William Dix Jr. (1776-1814) who was in Tremont when he died in 1814.

Archibald L. Dix (1867-after 1940) was born in January 1867 to master mariner John P. Dix and Harriet E. Verrill in Tremont, Maine. Capt. and Mrs. Dix settled in Philadelphia some time between 1870 and 1880. Archibald attended the University of Pennsylvania and became a doctor, graduating from there in 1893. He apparently had some notable success in treating Lupus.

Archibalds sister, Mira Verrill Dix (1870-1934) was born on May 18, 1870. She became a teacher.

Archibald and Mira lived together in Philadelphia, with various members of their family, for the rest of their lives. While neither married they were frequently mentioned in the social pages of newspapers as attendants in weddings of their family.

On November 18, 1897 Archibald was best man at the wedding of his first cousin, Frederick C. Holden, when Frederick married Maud Wilson in Brooklyn, New York. Frederick C. Holdens mother, Hannah Augusta Verrill, was a sister of Archibalds mother, Harriet E. Verrill.

Their sister, May E. Dix (1873-), married John Lucas on November 19, 1902 with Myra, Miss Verrill Dix, as maid of honor and Archibald serving as an usher.

After Mays husband, John Lucas died, she lived with the family in Philadelphia from at least 1920 to 1930. Mira, who sometimes went by the name of Verrill Dix, and her sister, May (Dix) Lucas rented the Miller Cottage in Bar Harbor in 1924.

Mira Verrill Dix died c. December 29, 1934 and was buried on January 3, 1935 at the Westminster Cemetery in Marion, Pennsylvania where her father was buried. Her brother, Archibald, signed the papers.

Archibald L. Dix died some time after 1940."

Type: Image, Photograph

Description: "Charles E. ""Charlie"" Wakefield (1908-1986) was born and died in Cherryfield, the ""Blueberry Capital of the World,"" a town in Washington County, Maine, on the Narraguagus River. Charlie played his saxophone at many Mount Desert Island celebrations of his time and was the author of ""Trademark: Music - A Treasury of Downeast Maine Musical History"" - 1978.

The Charles Wakefield Memorial Bandstand in Bandstand Park on Main Street next to the Legion Hall in the Cherryfield Historic District is named in his honor.

The NRHP number for the Cherryfield Historic District - site of the bandstand is 90001467.

""Without a doubt, Charlie [Wakefield] is the most versitile [Sic] musician I have ever worked with. Many musicians play several instruments but never really excell in any one. This was never the case with Charlie. I used to get the biggest kick out of calling him to play a job, he would always ask me what chair I wanted him to work, sax, trombone, piano or just name it and Charlie could handle it. If we were playing a combo job he always brought a couple extra instruments along just in case, maybe the valve trombone or the soprano sax. I remember many times I have been asked what instrument Charlie played, all I could say, he plays them all..."" - ""Memoirs of a Dance Band"" by Charlie [Charles H.] Bennett. Privately printed, p. 73-75. This is just a small part of what Charlie Bennett says in his pamphlet about Charlie Wakefield."

Steamer Pemaquid at the Edge of the Ice

Identifier: 5665

Accession #: 1032

Title: Steamer Pemaquid at the Edge of the Ice

Type: Image, Photograph

Subject: Vessels, Steamboat

Description: "The Maine Central fleet expanded quickly from the turn of the century until 1913. Pemaquid was the first of the new ships, having been purchased from the Long Island Railroad in 1901. She was a 132-foot steel-hilled single-screw steamer built in 1893 by Neafie and Levy of Philadelphia, with the distinction of being the last of the fleet to carry the Maine Central flag

Maine Centrals ships were sold off one by one until by 1931 the reliable Pemaquid, which during her thirty years with the railroad was used year-round, filling in for the seasonal vessels on the Mt. Desert run, was the only ship left. She was sold south that year and eventually was re-engined with a diesel. She lasted a long time, operating in the New York area into the 1960s. The Eastern [Steamship Lines] threw in the towel three years later, in 1934. Hereafter the Maine trains would stop in Ellsworth, and Mt. Desert Ferry, the great bustling rail and steamboat facility, would fall silent. - Mount Desert - An Informal History Edited by Gunnar Hansen, Maritime Transportation section written by Peter B. Bell, p. 166-167, 169 - 1989

""The steamer ""Pemaquid"" was built in 1893 as the ""Long Island."" Shortly after the turn of the century, she was placed in service on the Maine coast by the Maine Central Railroad. The vessel left Maine in 1931. [She operated on the Hudson River and last ran] as a dieselized ferry to Block Island."" - ""Steamboats On The Hudson River"" by William H. Ewen, Jr., Arcadia Publishing, May 30, 2011, p. 89."

Sailor's Valentine Made for Amanda (Robinson) Richardson, Mrs. Abraham Richardson, by Captain E.H. Pray

Identifier: 6803
Title: Sailor's Valentine Made for Amanda (Robinson) Richardson, Mrs. Abraham Richardson, by Captain E.H. Pray
Type: Image, Photograph
Subject: Object, Other Object
Description: Some interesting valentines even come up for sale on eBay. A great friend of mine, Pippa Vlasov, who generously lent me a portion of her collection for this book, is an avid and determined collector who has been known to stay up all night at her computer waiting for an auction to close. One of her eBay treasures came from a hairdresser in Portland, Oregon, who found the Valentine in her grandfathers attic, took it to an antiques dealer, and asked him to sell it for her. The dealer placed the Valentine on eBay with a reserve price of $50. It sold for almost $7,000 and is a wonderful piecewith an elaborate hand inscription on the back of the box. The inscription reads: Presented to Mrs. A. Richardson by Captn. E.H. Pray, Schr Abraham Richardson, from Barbadoes, W.I. 1875.

The Valentine is a Double 13 with pattern of flowers on left and star on right. - Photograph and information about the Sailor's Valentine made for Amanda (Robinson) Richardson, Mrs. Abraham Richardson, by Captain E.H. Pray. - Sailors Valentines by John Fondas, published by Rizzoli International Publications, p. 14, 15, 19, 72, 73, 91 - 2002

Captain E. H. Pray was Ephraim H. Pray, born to Ephraim and Rebecca P. (Norton) Pray on May 14, 1842. Ephraim married Vandora Carver, daughter of Wills and Nancy (Flye) Carver (born 1847), on December 25, 1864, in Tremont, Maine.

The schooner ""Abraham Richardson"" was built in Bass Harbor (Tremont) by William S. Newman in 1874. She was 154.38 tons - 99.0 - 27.0 - 9.0. Thirty-two people owned shares with the largest number of shares (4) owned by Abraham Richardson of Tremont in 1880. Her master, in 1880, was Nathan A. Reed when she hailed from Boston, Massachusetts. - List of Vessels Built on Mount Desert, Cranberry, Tinkers, Thompsons and Long Island (Frenchboro) Compiled by Ralph Stanley, p. 76 - 2003

The schooners builder, William Spurling Newman, was born to Jonathan and Sarah Spurling Newman on May 10, 1825. He married Lydia Jordan Stanley who was born to Sans (Jr.) and Fanny Guptill Spurling Stanley on February 2, 1828 in Southwest Harbor, Maine. Lydia died on April 19, 1867 in Southwest Harbor. William Spurling Newman died on October 16, 1901.

The Abraham Richardson was named for her largest shareholder, Abraham Richardson, born to Abraham and Mercy Wormell Richardson on February 3, 1809. Abraham first married Deborah N. Burnam who was born about 1809, on December 21, 1830. Deborah N. Burnam Richardson died on March 31, 1859. Abraham then married Amanda Robinson, daughter of Levi and Lavinia Savage Robinson on September 27, 1862. Amanda was born on February 21, 1836, the sister of Capt. Adoniram Judson Robinson. She was, therefore, the great grand aunt of 20th Century Southwest Harbor boat builder, violin maker, genealogist and story teller, Ralph Warren Stanley. Abraham Richardson died on August 31, 1878 in Tremont, Maine. Amanda (Robinson) Richardson died on April 14, 1914.

Capt. Pray made the valentine for the wife of the owner of his schooner.

""Abraham Richardson"" was chartered by a show troupe in the Caribbean for two years."" She lost her rudder off Cape Hatteras and had to steer by hawser. Deaths - ""In Tremont, March 31 ult., Mrs. Debra N. RICHARDSON, wife of Capt. Abraham Richardson, age 50 years. Mrs. Richardson was universally beloved for her uniform kindness and benevolence, her Christian graces and amiable disposition. The community has sustained in her death the loss of a valuable member, one that was always ready and willing by word and deed to forward every praiseworthy object. The family of which she was an ornament and a model of patience, love and tender sympathy, has sustained irreparable loss. May be that Who tempers the wind to the shorn lamb sustain the afflicted ones of this family."" - The Ellsworth Herald, April 29, 1859

""Seven actions on policies of marine insurance for injuries claimed to have been suffered by the plaintiff's vessel coming in collision with the schooner ""Abraham Richardson."" This schooner, shortly before 9 o'clock of April 1, 1900, sank from

coming into collision with a barge. After sinking to a depth of about fifty-four feet at low water, the masts of the schooner projected some fifteen feet above the water, but none of her sails remained visible. About twelve hours after such sinking, the plaintiff's vessel, striking some part of the masts, spars, sails, or rigging of the submerged schooner, sustained damage thereby, to recover for which the actions were commenced. No attempt was ever made to raise the sunken schooner. She could have been raised and repaired, but the cost would have exceeded her value. The trial court ordered judgement for the defendant, and the plaintiff appealed."" Type: Image, Photograph
Subject: Businesses, Boatbuilding Business
Description: Photos taken in 1941 and 1942.

The following comes from interviews with Ralph Warren Stanley between 2009 and 2013.

The stern post was from an old elm tree on Carrie Joyces lawn. She sold the tree to Bink Sargent for $100. Carrie thought she was rich, as, at that time, she was getting an old age pension of $30 a month. She hired a car and got Ralph Stanleys grandmother, Celestia Lessie Gertrude (Dix) Robinson, Mrs. Ralph Judson Robinson (1875-1961), to go shopping in Bangor with her. Carrie got a blister on her heel from walking around Bangor.

Bink paid Harvard Gilley and Jack Ramsdell $15 and a pint of rum to cut the tree down. Henry Dunbar was running the mill at Southwest Boat at the time and he said that they sawed that tree into logs and lumber and used every bit of it.

Photos 1257-1 and 1257-2 shown Sewanhaka after being rebuilt. Photos 3361 and 2262 show her before.

The Canadian fishermen had developed the purse seining industry in Canadian waters and were getting substantial amounts of herring during the winter. Carroll Peacock followed the advice of one of his carrier captains, Andrew Martin, and decided to get in on it. He sent the carrier, Sewanhaka to Southwest Harbor to be rigged up as a purse seiner. The first few attempts with the purse seine were failures because the boat was too small, so they decided to re-build her. The next year the Sewanhaka was sent to Wagstaff & Hatfield boat yard in Port Greville, N.S. to be built over. When she was finished, she was an 85 seiner/carrier that could carry 135 hogsheads in her three holdsThe Sewanhaka was the first purse seiner rigged for the herring fishery on the East Coast of the United States. - Canned: A History of the Sardine Industry by John Gilman pp. 221-222.

Title: Annie Downs Clark and School Students

Type: Image, Photograph

Subject: People

Description: Annie Downs Clark is in the center - just left of doorway.

The sign on the building announcing Beautiful Stereopticon Views does not refer to stereograph or stereoscopic views, viewed through a viewer held in ones hand.

"Beautiful Stereopticon Views" - "The word "stereopticon" is frequently confused with "stereograph" and "stereoscope," but has nothing to do with either. The "Stereopticon" was a single lensed device to project lantern slides - transparent pictures on glass used for public lectures - we know it as a "slide show" in the Kodachrome era. The powerful light to project the image was generated by the same type of gas as miners used for their lamps. The event being advertised was an educational event probably showing slides of exotic places that most people from Southwest Harbor would never see except in pictures." - Weston J. Naef - August 2008.

Vasculum

Identifier: 15332

Title: Vasculum

Type: Image, Photograph

Subject: Object, Other Object

Description: A vasculum or a botanical box is a stiff container used by botanists to keep field samples viable for transportation. The main purpose of the valsculum is to transport plants without crushing them and by maintaining a cool, humid environment.

Vascula are cylinders typically made from tinned and sometimes lacquered iron, though wooden examples are known. The box was carried horizontally on a strap so that plant specimens lie flat and lined with moistened cloth.[1] Traditionally, British and American vascula were somewhat flat and valise-like with a single room, while continental examples were more cylindrical and often longer, sometimes with two separate compartments.[2] Access to the interior is through one (sometimes two) large lids in the side, allowing plants to be put in and taken out without bending or distorting them unnecessarily. This is particularly important with wildflowers, which are often fragile.

Some early 20th century specimen are made from sheet aluminium rather than tin, but otherwise follow the 19th century pattern. The exterior is usually left rough, or lacquered green.

This item's second image is a painting by Hermann Kern Der Botaniker depicting the artist's view of a botanist with a vasculum.

Description: From July 12 to July 24, 1888 a party of twenty young people who attended Westtown [Quaker] School vacationed on Mount Desert Island. The young people stayed at The Roberts House hotel in Northeast Harbor from July 14, 1888 to July 23, 1888. They wrote and privately published a journal of their adventures, with one person writing each chapter. The journal was illustrated with photographs hand tipped in to the pages. Judy and Peter Obbard, longtime summer residents of Southwest Harbor, have kindly loaned their copy of Mount Desert Memories to the Southwest Harbor Public Library to study.

Here in the Tenth Day Chapter, written by Anna Helena Goodwin, the young people, aboard a buckboard, passed Sand Beach on July 21, 1888

Lantern Walk and Story Telling at the Causeway

Identifier: 13376
Title: Lantern Walk and Story Telling at the Causeway
Type: Image, Photograph
Subject: Events
Description: Photographer George Soules posted the following on his blog for Nov 16, 2013:

Last night the Southwest Harbor Public Library on Mount Desert Island held a Lantern Walk. "As the days start to grow shorter we start to think about light and ways we can celebrate it. A lantern walk is an observance of the changing season." In preparation for this event, all were invited to come to the library the Thursday before to make lanterns. Janice was there as a volunteer helping the children glue colored paper onto tall glass wide mouth jars. On Friday, participants met at 5:00 PM at the High Road parking lot in Southwest Harbor and walked down Causeway Lane with lanterns lit. Then, aided by the glow of a full moon, they carefully navigated the path down to the water and gathered on the rocks for some storytelling before heading back. Janice and I tagged along with the hope of getting some pictures that captured the feel of this magical evening.

I used a Canon 5D Marl II DSLR mounted on a tripod with a Canon 24-70mm lens at f/2.8. I exposed the scene for 2 seconds at ISO 1600. Thanks to the moonlight, the surrounding area was nicely exposed as well.

Whatever post she held at the Claremont, she was not on the staff, nor in this photograph, at the age of 12 should the photograph have been taken in 1895.

Acadia National Park - Jordan Pond and the Bubbles Before Creation of Sieur de Monts National Monument

Identifier: 12441
Title: Acadia National Park - Jordan Pond and the Bubbles Before Creation of Sieur de Monts National Monument
Type: Image, Photograph
Subject: Places, Mountain
Description: This large (20" x 6") panorama print, found in a very old frame in a storeroom at the Southwest Harbor Public Library, has seen a lot of wear. Archivists who have studied it in a magnified state, have formed the impression that whoever made the print so long ago found it a difficult task. The early view is, however, valuable for the love that went into it and respect for its creator. Mount Desert Island has always inspired those who viewed it with the desire to capture what they have seen.

The view is from Jordan Mountain which was later changed to Penobscot Mountain.

Description: Remains of schooner "Catherine" in Fernald Cove, Somesville, 1935. A few years later a storm shifted the hulk to the shore at right where surviving frames and timbers could be seen for some years at low tide. After the wreck and before this photograph was taken, salvagers cut a hole through the side of the vessel to allow the mast to fall into the water and be salvaged. The hole, near the bow. is visible in this photograph.

Wharves and Buildings at Clark Point - Schooner Theoline Unloading Coal at J.N. Mills

Identifier: 11581
Title: Wharves and Buildings at Clark Point - Schooner Theoline Unloading Coal at J.N. Mills
Type: Image, Photograph
Subject: Places, Shore
Structures, Transportation, Marine Landing, Wharf
Vessels, Ship, Sailing Ship, Schooner
Description: The land in this photograph started out as part of the Clark familys land, hence Clark Point.

The upright building on the left of the photograph is the old Clark and Parker Store, the J.N. Mills Cash Store at the time this photograph was taken. Later it was the Manset Marine Supply store and, in 2012 the Oceanarium.
This building is:
172 Clark Point Road Tax Map 4 Lot 30 MHPC #405-0787.

The wharf occupied by the long dormered building was originally Simeon Sim Holden Mayos boat shop. It was sold to Andrew Edward Parker in 1912. He ran a boat shop there until 1925 when it was sold to Chester Eben Clement for his boat

shop. Researchers date this photograph at circa 1925 so it was probably still the property of Andrew Edward Parker. This building is:
168 Clark Point Road Tax Map 4 Lot 29.

Title: Students at the Southwest Harbor School with Teacher
Type: Image, Photograph
Subject: People
Organizations, School Institution
Description: While the photograph is old and in disrepair, up close the desks and chairs can be seen to shine indicating that, if not new, they were at least kept very clean. The side wall on the left of this old school was constructed of boards tightly nailed together. The back wall was painted brick. The drawings of children with pinafores, pinned to the left wall, were done by the children and in crayon. We know that the photograph was taken in October from the owls and black cats and autumn leaf décor, still universally used in school rooms around Halloween.

Henry Wadsworth Longfellow's The Village Blacksmith on a Blackboard

Identifier: 8091
Title: Henry Wadsworth Longfellow's The Village Blacksmith on a Blackboard
Type: Image, Photograph
Subject: Organizations, School Institution
Description: When the new schoolhouse was built, the old building was sold to George Harmon and it was used for stores and apartments.

Many years later the owners of the Harmon Block found, in one of the rooms, an old blackboard from when their building had been a school. On the blackboard was still part of the poem, "The Village Blacksmith" by Henry Wadsworth Longfellow and some doodling on it, remnants of a lesson from circa 1906! This date refers to the time the blackboard was last used.

The board shows the 4th stanza of the poem:

"And children coming home from school
Look in at the open door;
They love to see the flaming forge,
And hear the bellows roar,
And catch the burning sparks that fly
Like chaff from a threshing floor."

(From "The Village Blacksmith" by Henry Wadsworth Longfellow from "Ballads and Other Poems" published in 1841)

John Melbourne Rich House III - After 1900

Identifier: 7159
Accession #: 1023
Title: John Melbourne Rich House III - After 1900
Type: Image, Photograph
Subject: Structures, Dwellings, House
Description: John Melbourne Rich took the design for his new house in Tremont from Design 24 in the 1888 version of Palliser's "New Cottage Homes and Details."

The Pallisers showed two versions of Design 24. One, a modest house without a tower, and one, a showpiece with tower that could be built for a "cost of $1,700." For this amount one received, "plans, elevations, details and perspective view of a comfortable, convenient cottage home of six rooms, with tower which is designed to command a view of the surrounding country where erected."

John Melbourne Rich chose the showy tower version with which to command a view of Tremont.

John tore the top story of the three-story tower off when he found that the chimney smoked. This view of the house shows the two-story tower.

The John Melbourne Rich House I in 1910

Identifier: 7088
Accession #: 1023
Title: The John Melbourne Rich House I in 1910
Type: Image, Photograph
Subject: Structures, Dwellings, House
Description: The house was built by John "Talking John" Melbourne Rich, the first of his three houses. John owed his Uncle Jonathan Rich (1836-1907) a sum of money, so he swapped this Tremont house for Jonathan's older less valuable Richtown house. Emily (Rich) Trask (1884-1981), John Melbourne Rich's daughter, said in a 1975 interview that she was born in the house, "in that back bedroom up there That was a big place. It was different from these daysit had a piazza clean around it and round the front. Father was great on building big places but he got in debt so much that he had to give up and go over to Richville [Richtown] and live."

The main house, minus barn and ell, still exists in 2016, although covered in green asbestos shingles. The house was originally painted a cream color with brown trim. It sits back from the road just before the Tremont Congregational Church.

Subject: Structures, Dwellings, House
Description: John Melbourne Rich took the design for his new house in Tremont from Design 24 in the 1888 version of Palliser's "New Cottage Homes and Details."

The Pallisers showed two versions of Design 24. One, a modest house without a tower, and one, a showpiece with tower that could be built for a "cost of $1,700." For this amount one received, "plans, elevations, details and perspective view of a comfortable, convenient cottage home of six rooms, with tower which is designed to command a view of the surrounding country where erected."

John Melbourne Rich chose the showy tower version with which to command a view of Tremont.

John tore the top story of the three-story tower off when he found that the chimney smoked. This view of the house shows the two-story tower.

Columbus Day at the Old Center Meeting House - Wednesday, October 12, 1892

Title: Columbus Day at the Old Center Meeting House - Wednesday, October 12, 1892
Type: Image, Photograph
Subject: Events

Description: The 400th anniversary of Columbus' landing in America inspired the first official Columbus Day holiday in the United States. President Benjamin Harrison issued a proclamation in 1892, recommending to the people the observance in all their localities of the 400th anniversary of the discovery of America and describing Columbus as the pioneer of progress and enlightenment. On the four hundredth anniversary teachers, preachers, poets and politicians used Columbus Day rituals to teach ideals of patriotism. These patriotic rituals were framed around themes such as support for war, citizenship boundaries, the importance of loyalty to the nation, and celebrating social progress. Columbus Day first became an official state holiday in Colorado in 1906, and became a federal holiday in 1937.

Celebrants in this photograph of the 1892 anniversary are dressed in their best wool and satin. Many of the children are

holding flags and several of them sport berets made of starred fabric. One young woman holds a violin.

The adjacent wharf is where John L. Stanley operated his ice and fisheries businesses, and Lewis Newman's meat market lies further at the left." - Mount Desert Island - Somesville, Southwest Harbor, and Northeast Harbor by Earle G. The corner of the Elisha B. Crane house is visible on the left.

The horses are standing in front of P.L. Sargent's Livery Stable on Clark Point Road.

On the right, part of the Old Masonic Hall may be seen, followed by A.L. Gilley's Barber Shop, Dr. R.J. Lemont's Drug Store and residence, Stephen Harmon's General Store, and William J. Tower's residence.

Seal Harbor Panorama

Identifier: 9736
Title: Seal Harbor Panorama
Type: Image, Photograph
Subject: Places, Harbor
Description: The photograph was taken from Graycliff, the Eugene Stuart Bristol Cottage

The steamship "Norumbega" is shown leaving steamboat wharf and heading out of the harbor.
The steamship "Sappho" is just outside the harbor.
Creator: Townsend - Charles A. Townsend (1871-1932)
Place: Mount Desert, Seal Harbor
State: ME
Country: USA
Date: 1910-08
Source: Charles A. Townsend Collection
Provenance: SWHPL 9736 is a combination of SWHPL 9593 and 9594, two photographs taken by Charles Townsend and meant to form a panorama. He could not put the photographs together with the tools available to him in 1910. This photograph is imperfect because of the different exposures in the original photographs, but shows Townsend's intent and what the vista from "Graycliff" would have been in 1910.

John Melbourne Rich House I in 2004

Identifier: 6023
Accession #: 1010
Title: John Melbourne Rich House I in 2004
Type: Image, Photograph
Subject: Structures, Dwellings, House
Description: The house was built by John "Talking John" Melbourne Rich, the first of his three houses. John owed his Uncle Jonathan Rich (1836-1907) a sum of money, so he swapped this Tremont house for Jonathan's older less valuable Richtown house. Emily (Rich) Trask (1884-1981), John Melbourne Rich's daughter, said in a 1975 interview that she was born in the house, "in that back bedroom up there That was a big place. It was different from these daysit had a piazza clean around it and round the front. Father was great on building big places but he got in debt so much that he had to give up and go over to

Richville [Richtown] and live."

The main house, minus barn and ell, still exists in 2016, although covered in green asbestos shingles. The house was originally painted a cream color with brown trim. It sits back from the road just before the Tremont Congregational Church.

After Jonathan Rich's death in 1907 his widow, Roseanna B. (Dix) Rich sold the house to Joseph E. Wooster. Roseanna built a house on the water opposite. A later owner, Alvah Dalton Rich, Sr.'s widow, Evelyn Frances (Pomroy) Rich's second husband, Charles Edwin Hamblen, tore off the barn and ell during the depression to save money on taxes. The house had no electricity until 1942.

Description: "Practically every town in Victorian America boasted a photography studio. The proprietor, whether he knew it or not, was an early chronicler of family life. Newborns, graduates, brides, grooms, and entire families posed for the camera alongside wicker props.

Ornate wicker furniture made its debut in photography studios during the 1870s. Light, airy and noticeably three-dimensional in photographs, wicker props made greater headway in studios during the 1880s and early 1900s. Because it was so inexpensive and easy to store, photographers and the public took wicker to their hearts. In fact, fancy wicker pieces became known as photographers chairs. Wickers popularity in studios created a new market; Heywood Brothers and Wakefield Company featured in their 1898 catalogue an extremely ornate five-legged posing chair specifically designed as a photographers prop." - "Collectors Guide to American Wicker Furniture," by Richard Saunders, published by Hearst Books, New York, 1983, p. 43. The following pages contain photographs showing various ornate wicker chairs that were used by photographers. The chair shown in this photograph appears on pages 47 and 57. The same chair, obviously used by Southwest Harbor photographer. J.C. Ralph, appears in other photographs in the library collection.

Subject: Places, Harbor
Description: The photograph shows one of the Indian shacks on Indian Lot on the rise across the road on the right, two horses and buggies rounding the bend, a dory, a cat boat (?), a canoe and the "sunken vessel", probably the Schooner Palestine..

The white barn on the left belonged to William Gilman Parker, Deacon Henry Higgins Clarks son-in-law. The dark shed-like building at the edge of the water was part of the Deacons shipyard.

William Lukens Elkins Sinkler and Captain Francis Milton Spurling with Tuna at Beal's Fish Wharf

Identifier: 7755
Title: William Lukens Elkins Sinkler and Captain Francis Milton Spurling with Tuna at Beal's Fish Wharf
Type: Image, Photograph
Subject: People
Businesses, Fishery Business
Structures, Transportation, Marine Landing, Wharf
Description: From Left to Right:

Richard K. Sinkler (1944-2007) - son of William Lukens Elkins Sinkler - or possibly Richard's brother, William L. Sinkler, Jr. - Richard would have been about 8 years old when this photograph was taken. People more informed than we may help us to positively identify this child.

William Lukens Elkins Sinkler (1919-)

Francis Milton Spurling (1896-1958) - sailed for the Sinkler family.

The fish was a circa 500 lb. tuna (formerly called "Horse Mackerel" in these waters) - possibly the one described as being harpooned in Leaves Folded Down

See: Leaves Folded Down by Louise E. [Elkins] Sinkler, privately published in a limited edition of 300 copies and a second edition of 500 copies of which the Southwest Harbor Public Library copy is number 228, Haverford House, Wayne, Pa., 1971, pages 109-110.

Description: The fire trucks are from left to right:
1950 Ford

1941 Buffalo custom pumper

The building shown in this photograph was built by R.M. Norwood in 1917. - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, p. 85 1938

It was originally the primary school for Southwest Harbor, located on Main Street on the land that is now the lawn in front of Pemetic High School, now Pemetic Elementary School. It was moved across the street in 1938 to serve as a building to store fire trucks, town equipment and, initially, the school bus. The second floor, where the town office is now located, was used primarily for storage. - 2007

Description: The fire trucks are, from left to right:

1941 Buffalo custom pumper

Foreground:
Hand pumper #609

The hand pumber #609 was built by William Cooper Hunneman (1769-1856) in 1857. William Hunneman, an apprentice to Paul Revere, is best known for the andirons and occasional teakettle marked with his surname. The #609 was sold first to Portsmouth, New Hampshire, and named the "Governor Langdon". Purchased in 1879 by Bedford Massachusetts, #609 was renamed "Shawsheen", and became the second engine the town of Bedford owned. Later #609 made it's way to Tremont Maine, and in 1905, the pumper became a part of the new town of Southwest Harbor when it separated from Tremont.

Drawn and pumped by hand, this pumper was last known to be used at the Causeway Club in Southwest Harbor, celebrating V-E Day in 1945. Over the remaining years the pumper was stored in many Mount Desert Island locations. Moved from place to place, including the museum in Northeast Harbor, the Seal Cove Auto Museum in Seal Cove, the pumper now resides in Southwest Harbor.

In the winter of 2008-09, the Junior Firefighters checked on the pumper to find it's wheels frozen in three inches of ice at the current storage facility. This prompted the kids to start a fundraising campaign to house #609 in a permanent, solar powered, climate controlled building, on the grounds of the Southwest Harbor Fire Station. Two sides of the structure are to be UV protective glass for viewing and enjoyment by future generations.

"The round table meeting of the librarians will be held at the library on Thursday, May 22, opening at 10 o'clock. The meeting is called by Miss Marion Shaw of the State Library and invitations have been sent to the librarians of Hancock and Washington and Waldo Counties, so a large attendance is expected. Tea will be served by the trustees of the Southwest Harbor library. Of the 20 or more public libraries in Hancock County, seven are on Mount Desert Island." - Bar Harbor Times, Thursday, May 22, 1947, page 10 - Mrs. Seth Thornton, Corr., Southwest Harbor, Telephone 66.

"Librarians Met At Southwest Harbor Thursday
The Round Table of Librarians held Thursday at the public library here was attended by 22 librarians and library trustees from out of town in spite of the rainy day, which doubtless kept others at home. Miss Marian Shaw of the State Library at Augusta presided.

The morning session opened at 10 o'clock, beginning with the welcome to the town and a sketch of the history of the

Southwest Harbor Library by Mrs. Seth Thornton, who described the small beginning 68 years ago to the present comfortable, well equipped and well stocked library. Discussion of problems arising in the work brought out many good ideas and suggestions from Miss Shaw's experience.

The subjects were how long to keep current magazines on hand, when to discard books, restrictions as to lending books of doubtful value and Mrs. Chester R. Parker of the Bluehill [sic] Library, gave a demonstration of mending and rebinding books. Lunch was served at the Carpenter Restaurant and the meeting resumed at 2 o'clock.

Miss Shaw showed some children's books useful in teaching race relations, several discussions followed and there was a demonstration of story telling. [sic] Tea was served by the trustees of the Southwest Harbor Library.

Those attending from out of town were: Miss Marian Shaw of Augusta, Mrs. Harriet V. C. Ogden, Mrs. J. H. Evans, of Bar Harbor, Mrs. Cynthia Stanley, Manset; Edith V. Vaughan, Frances W. Weeks, Gertrude F. Durham, Belfast: Charlotte Norwood, Bernard, Mrs. C. A. Haynes, Miss Marion Wyman, Mrs. J. J. Duffy, Mrs. E. C. Osgood of Ellsworth; Mrs. Chester R. Parker, Mrs. Jerold M. Hinckley, Mrs. Josie Parker, of Bluehill; Mrs. Lester Wentworth of East Bluehill; Mrs. Gerald Butler, Winifred M. Whitten, Gladys S. Thurston of Belfast; Virginia S. Beatty, Edna M. Handy and Carolyn S. ? of Amherst.

Those attending from the village were Miss Ruth Lawrence, librarian; Miss Grace M. Simmons, Miss Mabel Colvin, Mrs. R. M. Norwood, Mrs. Allen J. Lawler, Mrs. H. L. Rand, Miss Mary C. Buchan, Mrs. L. M. Goulding, Miss Elizabeth Lawler, Mrs. Seth S. Thornton. Miss Shaw pronounced the occasion one of the most successful held in small communities." - Bar Harbor Times, Thursday, May 29, 1947, page 1.

Oscar Randall Seavey and the School Bus

Identifier: 7765
Title: Oscar Randall Seavey and the School Bus
Type: Image, Photograph
Subject: People
Description: Must have been a special occasion - Note by W.H. Ballard on the negative sleeve. Mr. Ballard apparently wrote the note some years after taking the photograph. It is possible that, from research quoted below, he took the photograph at the time of the first resolution in honor of Oscar Seavey by the town of Southwest Harbor in 1949.

The first school bus was a green 1938 Ford with mechanical brakes. Every morning Oscar Seavey would get under the bus and adjust the brakes. Ralph Stanley 05/11

This photograph shows the new International bus purchased in 1948 - also possibly the "special occasion" mentioned by Ballard.

Robert Kaighn and Friends with a Buckboard Party on Mount Desert Island

Identifier: 9488
Title: Robert Kaighn and Friends with a Buckboard Party on Mount Desert Island
Type: Image, Photograph
Subject: People
Description: Probably by Bryant Brandley.

Information written on the reverse:

Ellen Cooper beside driver (Ellen K. McInnes's aunt)
Sarah Kaighn in back of driver (Ellen K. McInnes's aunt)
Howard Cooper in back of Sarah Kaighn (Howard C. Johnson's uncle)

Judging from other photographs, Robert Kaighn possibly may be identified as the gentleman 4th from left on the near side of the buckboard and it seems probably that his wife, Mary (Cooper) Kaighn, is on his right, 3rd from left.

Balance Rock on South Bubble

Identifier: 9504
Accession #: 1034
Title: Balance Rock on South Bubble
Type: Image, Photograph
Subject: Places, Mountain
Description: The original title of the photograph was "Balance Rock on South Bubble" as the rock was known by that name when the photograph was taken in 1909 before the creation of Sieur de Monts National Monument, which later became Acadia National Park. The name was probably changed because of the confusion between it and the famous Balance Rock on the shore at Bar Harbor.

Robert Lindsay Smallidge, Sr. with His Boat Models

Identifier: 6752

Title: Robert Lindsay Smallidge, Sr. with His Boat Models

Type: Image, Photograph

Subject: People

Description: Robert Sr., known in the family as "Lindsay," was a craftsman. The vessel in the center, on the back step, was a model of the "Falucca," a lateen rigged pirate ship. "All Lindsays models were made from scratch, frequently from plans he had found in periodicals, or purchased from a supply house. Sometimes when he didnt have plans, but was asked to make a model by the owner of a sailboat, he took photos and measurements of the boat in the water and drew his own plans. Lindsay made many things including: sleds, hunting knives, hatchets, crooked knives, canes, chests, weather vanes, half model sailboats, full model sail boats, water line models, dioramas etc.

Fleet of Offshore Fishing Schooners - The Mackerel Fleet in Southwest Harbor, Maine

Identifier: 5090

Accession #: 1010

Title: Fleet of Offshore Fishing Schooners - The Mackerel Fleet in Southwest Harbor, Maine

Type: Image, Photograph

Subject: Places, Harbor

Vessels, Ship, Sailing Ship, Schooner

Description: The view is from the Pemetic Hotel (The Castle) and, on the Southwest Harbor side, shows the Clarence Clark (Ellsbert/Heilaka) house left foreground.

The long roofed building in the center, next to the harbor, a bowling alley after World War II - currently the Hamilton Marine building.

The building on the right with the striped roof is the firm of Clark & Parker/Manset Marine Supply Co./ and the Oceanarium since 1979. The Oceanarium is the oldest commercial building on Clark Point - the only one extant except the Clarence Clark House.

The Manset shore is in the background with discernible landmarks, including the Manset Union Church, the Stanley wharf, the early Stanley House and numerous commercial buildings on the Shore Road. There are about 30 schooners visible in the harbor and tied up at the wharves.

Notes: SWHPL 5604 and 5090 were made from the same original Neal photograph circa 1895. 5604 is a copy published in an old newspaper and with a date for the picture of 1904. 5090 is a clear photograph and, therefore, a better view, but 5604 shows a little bit more of the harbor and boats on the right than does 5090.

See Photograph #5524 for another view of the fleet in the harbor.

The Henry R. Hinckley Company - Manset - Six Boats Under Construction at the Main Shop

Identifier: 12513

Title: The Henry R. Hinckley Company - Manset - Six Boats Under Construction at the Main Shop

Type: Image, Photograph

Subject: Businesses, Boatbuilding Business

Description: According to Nick Voulgaris, author of "Hinckley Yachts: An American Icon" published by Rizzoli in 2014, page 32, "this is one of the earliest photographs of a Hinckley using the now iconic Talaria logo on its hulls (seen on the boat to the far right)."

The boat is shown with its number, I-K-277.

Talaria
Noun: (In Roman mythology) winged sandals as worn by certain gods and goddesses, especially Mercury.
Origin: Latin, neuter plural of talaris, from talus "ankle" - talaria, Oxford Dictionaries, 2014, Accessed online 09/06/2014; http://www.oxforddictionaries.com/definition/english/talaria

The best known image of Mercury wearing talaria is Winged Mercury, one of four sculptures done by Gian Bologna, born as Jean Boulogne (1529-1608), the most famous of which is in the Bargello National Museum in Florence, Italy.

Description: Left to Right:
Cora A. Richardson, Mrs. Gilbert H. Rosebrook (1867-1954)
Mabel Estelle Stanley

Cora and Mabel would have been third cousins if Cora had been born to her adopted father as she and Mabel would both

have escended from John (1741-1811) and Emma Cross Rich (1740-1803). Island relationships being what they were, the two women were distantly related by marriage to each other anyway.

Harriet Eliza Boynton

Identifier: 8892
Title: Harriet Eliza Boynton
Type: Image, Photograph
Subject: People
Description: The back of this photograph, in the Whitmore family collection, says:

"Harriet, dau. Of Enoch and Charlotte (Kimball) Boynton of Groveland, Mass. Born about 1862.

Ancestry line.

William Boynton - 1 - & Sarah Jackson
Joshua Boynton - 2 - & Hannah Barnett
Joshua Boynton - 3 - & Sarah Dole
Enoch Boynton - 4 - & Rachel Foster
Enoch Boynton - 5 - & Abigail Farren
Methusalah Boynton - 6 - & Amelia Dodge
Enoch Boynton - 7 - & Charlotte Kimball

Harriet and her brother Charles, living out at Seattle
This photo 1894"

These facts agree with a mixture of other accounts and would lead one to suppose that Harriet's photograph was kept by the Whitmore family, who intermarried with the Carrolls and Lurveys, because Harriet was a first cousin twice removed to Rachel Foster Lurvey (1791-1881), Mrs. John Carroll. Harriet was, therefore, in her own generation a third cousin to the ten children of Jacob William and Rebecca (Whitmore) Lurvey Carroll.

Type: Image, Photograph
Subject: Places, Shore

Description: Flying Mountain is in the foreground. Dog Mountain on the left and Robinson Mountain on the right appear in the background.

"The house on the left was built by Rev. Oliver Fernald and in 1926 his daughter, Louise Fernald (later Mrs. Lynn M. Goulding) sold it to Miss Mary E. Dreier of New York who remodeled it and named it Valour House in memory of the band of the Jesuit settlement of 1813. The farmhouse on the right was built in the early 1800's. In 1842 it was remodeled and made into a two family dwelling for Eben and Daniel Fernald. The brothers lived there and worked the farm for many years." - Traditions and Records of Southwest Harbor and Somesville, Mount Desert Island, Maine by Mrs. Seth S. Thornton, p 138 and 9 - 1938.

The house was later sold by Louise to the Dreiers.

In 2007, the house on the left was owned by Mrs. Rhys Williams and the house on the right was still owned by the Dreier family.
